SUBJECT INDEX

Absorptiometry
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563

Acetabular fracture surgery
Goal of acetabular fracture surgery, 586
Three-view radiographic assessment of heterotopic ossification after acetabular fracture surgery, 93

Acetabulum
Anatomic considerations of plate-screw fixation of the anterior column of the acetabulum, 264
Effect of variable size posterior wall acetabular fractures on contact characteristics of the hip joint, 395
Optimal technique of screw placement in the ischial tuberosity for posterior acetabular fractures, 160
Prevention of heterotopic bone formation after acetabular fracture fixation by single-dose radiation therapy, 258
Retropubic vascular hazards of the ilioinguinal exposure, 156
Unrecognized foreign body in the hip joint, 216

Acquired immunodeficiency syndrome
Hazards to the orthopaedic trauma surgeon: occupational exposure to HIV and viral hepatitis, 289

Acromion fracture
Concomitant fracture of the coracoid and acromion after direct shoulder trauma, 437

Adolescent
Avulsion fractures of the anterior superior iliac spine in adolescents, 440

Alcohol use
Drug and alcohol use in orthopedic trauma patients, 21

Amputation
Amputation versus reconstruction traumatic defects of the leg: outcome and costs, 223

Amputee
Cross leg flap in a bilateral traumatic amputee, 510

Anatomy
Anatomic considerations of plate-screw fixation of the anterior column of the acetabulum, 264
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487

Aneurysm
False aneurysm presenting as delayed posterior interosseus nerve palsy, 583

Angiography
Posterior hip dislocations: a cadaveric angiographic study, 447

Ankle joint
Extended uses for the Herbert/Whipple screw, 7
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577

Ankylosis
Articulated radial head replacement and elbow release for post head-injury heterotopic ossification, 68

Anterior incision
Use of an anterior incision of the meniscus for exposure of tibial plateau fractures requiring open reduction and internal fixation, 243

Antibiotic bead pouch
Reamed nailing of open tibial fractures: does the antibiotic bead pouch reduce the deep infection rate?, 298

AO fracture classification
AO fracture classification logos, as evocative signposts, 146

Arm injury
Pulseless arm in association with totally displaced supracondylar fracture, 410

Arterial injury
Arterial injuries in orthopaedics: the posteromedial approach for vascular control about the knee, 476

Arthritis
Contact stress distributions in malreduced intraarticular distal radius fractures, 331

Attitudes
Orthopedic trauma surgeons' attitudes and practices towards bloodborne pathogens, 383

Autogenous cancellous bone graft
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108

Autograft
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108
Evaluation of ground cortical autograft as a bone graft material in a new canine bilateral segmental long bone defect model, 28

Avascular necrosis
Posterior hip dislocations: a cadaveric angiographic study, 447

Avulsion
Avulsion of the patellar ligament with combined fracture luxation of the proximal tibial epiphysis, 355
Pectoralis major tendon avulsion in association with proximal humerus fracture, 508

Avulsion fracture
Avulsion fractures of the anterior superior iliac spine in adolescents, 440

Axis body fracture
Classification and treatment of axis body fractures, 536

Bending strength
Strength of plate fixation in relation to the number and spacing of bone screws, 204

Biocompatibility
Removal of intramedullary nails from the femur, 560

Biomechanics
Biomechanical comparison of posterior internal fixation techniques for unstable pelvic fractures, 517
Biomechanical study of nine different tibia locking nails, 37
Comparative biomechanical evaluation of different external fixation sidebars: stainless-steel tubes versus carbon fiber rods, 470
Complete vertebral fracture/dislocation of the cervical spine with minimal neurologic deficit, 123
Distal femoral fixation: a laboratory comparison of the 95° plate, antegrade and retrograde inserted reamed intramedullary nails, 378
Effects of periosteal stripping on healing of segmental fractures in rats, 279
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Split fractures of the lateral tibial plateau: evaluation of three fixation methods, 304

Bladder rupture
Pelvic and bladder trauma: a case report and subject review, 351

Blood flow
Effects of periosteal stripping on healing of segmental fractures in rats, 279
Posterior hip dislocations: a cadaveric angiographic study, 447

Bloodborne pathogens
Orthopedic trauma surgeons' attitudes and practices towards bloodborne pathogens, 383

Blunt trauma
Traumatic popliteal artery thrombosis and compartment syndrome of the leg following blunt trauma to the knee: a discussion of treatment and complications, 138

Bone
Bone regeneration with resorbable polymeric membranes: treatment of diaphyseal bone defects in the rabbit radius with poly(L-lactide) membrane, 178
Reinforcement of cancellous bone screws with calcium phosphate cement, 15

Bone defects
Bone regeneration with resorbable polymeric membranes: treatment of diaphyseal bone defects in the rabbit radius with poly(L-lactide) membrane, 178

Bone density
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248

Bone graft
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108
Evaluation of ground cortical autograft as a bone graft material in a new canine bilateral segmental long bone defect model, 28

Bone-pin interface
Improvement of the bone-pin interface with hydroxyapatite coating, 236

Book reviews
Current Diagnosis and Treatment in Orthopaedics, edited by Harry Skinner, 220
Osteoporosis, Etiology, Diagnosis, and Management (Second Edition), by B. Lawrence Riggs, and L. Joseph Melton III, 220
Pocket Atlas of MRI Musculoskeletal Anatomy, by Thomas H. Berquist, 145
The Science and Practice of Intramedullary Nailing, edited by Bruce Browner, 516
The Shoulder (from the Master Techniques in Orthopaedic Surgery Series), edited by Edward Craig, 220
Techniques in Spinal Fusion and Stabilization, by Patrick W. Hitchon, Vincent C. Traynelis, and Setti Rengachary, 72
Trauma, edited by David Feliciano, Ernest Moore, and Kenneth Mattox, 516
The Wrist: Master Techniques in Orthopedic Surgery, edited by Richard H. Gelberman, 145

Brachial artery
Pulseless arm in association with totally displaced supracondylar fracture, 410

Cadaveric study
Posterior hip dislocations: a cadaveric angiographic study, 447

Calcaneus
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487

Calcaneus (*cont.*)
Irreducible fracture of the calcaneus due to flexor hallucis longus tendon interposition, 285
Open reduction and internal fixation of the calcaneus using minifragment plates, 63
Calcium phosphate cement
Reinforcement of cancellous bone screws with calcium phosphate cement, 15
Callus
Connective tissue parameters in experimental nonunion, 114
Cancellous bone
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108
Cancellous bone screw
Cancellous bone screw thread design and holding power, 462
Reinforcement of cancellous bone screws with calcium phosphate cement, 15
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Canine model
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108
Evaluation of ground cortical autograft as a bone graft material in a new canine bilateral segmental long bone defect model, 28
Carbon fiber rod
Comparative biomechanical evaluation of different external fixation sidebars: stainless-steel tubes versus carbon fiber rods, 470
Cartilage fracture
Triradiate cartilage fracture associated with a transepiphyseal separation of the femoral head, 575
Cerclage wiring
Open fractures of the patella, 403
Cervical hip fracture
Incidence of Garden 1 + 2 and Garden 3 + 4 cervical hip fractures in Copenhagen, 523
Cervical spine
Complete vertebral fracture/dislocation of the cervical spine with minimal neurologic deficit, 123
Chance fracture
Pediatric chance fractures from lapbelts, 421
Children
Early complications with external fixation of pediatric femoral shaft fractures, 191
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577
Pediatric chance fractures from lapbelts, 421
Clavicle fracture
Ipsilateral sternoclavicular joint dislocation and clavicle fracture, 506
Closed reduction
Irreducible fracture of the calcaneus due to flexor hallucis longus tendon interposition, 285
Cocaine
Drug and alcohol use in orthopedic trauma patients, 21
Comminution
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Compartment syndrome
Effect of antecedent ischemia on the tolerance of skeletal muscle to increased interstitial pressure, 555
Forearm compartment syndrome due to automated injection of computed tomography contrast material, 433
Traumatic popliteal artery thrombosis and compartment syndrome of the leg following blunt trauma to the knee: a discussion of treatment and complications, 138
Complications
Early complications with external fixation of pediatric femoral shaft fractures, 191
Fatal Group A streptococcal infection with toxic shock syndrome: complicating minor orthopedic trauma, 149
Fractures below the end of locking humeral nails, 500
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99
Traumatic popliteal artery thrombosis and compartment syndrome of the leg following blunt trauma to the knee: a discussion of treatment and complications, 138
Treatment of deformed tibial intramedullary nail, 580
Compression plate
Titanium plate fixation: a review of implant failures, 389
Computed tomography
Forearm compartment syndrome due to automated injection of computed tomography contrast material, 433
Unrecognized foreign body in the hip joint, 216
Condylar buttress plate
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Condylar screw
Dynamic condylar screw for subtrochanteric femur fractures with greater trochanteric extension, 317
Connective tissue
Connective tissue parameters in experimental nonunion, 114
Contact stress
Contact stress distributions in malreduced intraarticular distal radius fractures, 331
Contrast material
Forearm compartment syndrome due to automated injection of computed tomography contrast material, 433
Copenhagen
Incidence of Garden 1 + 2 and Garden 3 + 4 cervical hip fractures in Copenhagen, 523
Coracoid fracture
Concomitant fracture of the coracoid and acromion after direct shoulder trauma, 437
Costs
Amputation versus reconstruction traumatic defects of the leg: outcome and costs, 223
Crescent fracture
Crescent fracture: a posterior fracture dislocation of the sacroiliac joint, 165
Cross leg flap
Cross leg flap in a bilateral traumatic amputee, 510

Debridement
Gunshot fractures of the humeral shaft treated with external fixation, 273
Decompression
Timing of surgical decompression and fixation of acute spinal fractures, 323
Deep-vein thrombosis
Incidence of deep-vein thrombosis in patients with fractures of the lower extremity distal to the hip, 230
Deformity
Treatment of deformed tibial intramedullary nail, 580
Dependency
Dependency after hip fracture in geriatric patients: a study of predictive factors, 531
Diagnostic aid
Plantar ecchymosis sign: a clinical aid to diagnosis of occult Lisfranc tarsometatarsal injuries, 119
Disability
Functional outcome of thoracolumbar burst fractures without neurological deficit, 541
Dislocation
Complete vertebral fracture/dislocation of the cervical spine with minimal neurologic deficit, 123
Crescent fracture: a posterior fracture dislocation of the sacroiliac joint, 165
Ipsilateral sternoclavicular joint dislocation and clavicle fracture, 506
Open anterior dislocation of the shoulder, 128
Open inferior glenohumeral dislocation, 504
Open medial subtalar dislocation associated with fracture of the posterior process of the talus, 142
Posterior hip dislocations: a cadaveric angiographic study, 447
Dislocation-fracture
Intermediate-term experience of Pipkin fracture-dislocations of the hip, 455
Irreducible fracture dislocation of the knee, 359
Irreducible fracture of the calcaneus due to flexor hallucis longus tendon interposition, 285
Unrecognized foreign body in the hip joint, 216
Drug testing
Drug and alcohol use in orthopedic trauma patients, 21
Drug use
Drug and alcohol use in orthopedic trauma patients, 21

Ecchymosis
Plantar ecchymosis sign: a clinical aid to diagnosis of occult Lisfranc tarsometatarsal injuries, 119
Editorial
New beginnings, 371
Elderly
Dependency after hip fracture in geriatric patients: a study of predictive factors, 531
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99
Weight bearing after hip fracture: a prospective series of 596 geriatric hip fracture patients, 526
Embolization
Fatal pulmonary embolization after reaming of the femoral medullary cavity in sclerosing osteomyelitis, 429
Endosteal substitution
Use of endosteal substitution in the treatment of recalcitrant nonunions of the femur, 1
Epiphysiolysis
Triradiate cartilage fracture associated with a transepiphyseal separation of the femoral head, 575
Expanded indication humerus
Extended uses for the Herbert/Whipple screw, 7
Extensile medial approach
Extensile medial approach to the femur, 481

External fixation
Comparative biomechanical evaluation of different external fixation sidebars: stainless-steel tubes versus carbon fiber rods, 470
Early complications with external fixation of pediatric femoral shaft fractures, 191
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487
Gunshot fractures of the humeral shaft treated with external fixation, 273
Improvement of the bone-pin interface with hydroxyapatite coating, 236
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545
External immobilization
Distal tibial nonunion treated by intramedullary reaming with external immobilization, 45
Extravasation
Forearm compartment syndrome due to automated injection of computed tomography contrast material, 433

Fasciocutaneous flaps
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577
Fasciotomy
Effect of antecedent ischemia on the tolerance of skeletal muscle to increased interstitial pressure, 555
Fat embolization
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75
Femoral head
Triradiate cartilage fracture associated with a transepiphyseal separation of the femoral head, 575
Femoral neck fracture
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Femoral neck osteotomy
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416
Femoral shaft
Early complications with external fixation of pediatric femoral shaft fractures, 191
Femur
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108
Closed removal of a segmental intramedullary rod, 363
Distal femoral fixation: a laboratory comparison of the 95° plate, antegrade and retrograde inserted reamed intramedullary nails, 378
Dynamic condylar screw for subtrochanteric femur fractures with greater trochanteric extension, 317
Extensile medial approach to the femur, 481
Fatal pulmonary embolization after reaming of the femoral medullary cavity in sclerosing osteomyelitis, 429
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Irreducible fracture dislocation of the knee, 359
Mechanical failure of intramedullary hip screw in a subtrochanteric femoral fracture, 348
Recalcitrant femoral pseudarthrosis healed with a torsionally stiff intramedullary nail, 135
Removal of intramedullary nails from the femur, 560
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Use of endosteal substitution in the treatment of recalcitrant nonunions of the femur, 1
Femur fracture
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Fibula
Posterior plating of displaced Weber B fibula fractures, 199
Fixation
Anatomic considerations of plate-screw fixation of the anterior column of the acetabulum, 264
Biomechanical comparison of posterior internal fixation techniques for unstable pelvic fractures, 517
Biomechanical study of nine different tibia locking nails, 37
Comparative biomechanical evaluation of different external fixation sidebars: stainless-steel tubes versus carbon fiber rods, 470
Distal femoral fixation: a laboratory comparison of the 95° plate, antegrade and retrograde inserted reamed intramedullary nails, 378
Early complications with external fixation of pediatric femoral shaft fractures, 191
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487
Gunshot fractures of the humeral shaft treated with external fixation, 273
Improvement of the bone-pin interface with hydroxyapatite coating, 236
Incidence of deep-vein thrombosis in patients with fractures of the lower extremity distal to the hip, 230
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Ipsilateral sternoclavicular joint dislocation and clavicle fracture, 506
Open fractures of the patella, 403
Open reduction and internal fixation of the calcaneus using minifragment plates, 63
Prevention of heterotopic bone formation after acetabular fracture fixation by single-dose radiation therapy, 258
Refracture risk after plate removal in the forearm, 87
Reinforcement of cancellous bone screws with calcium phosphate cement, 15
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545
Split fractures of the lateral tibial plateau: evaluation of three fixation methods, 304
Strength of plate fixation in relation to the number and spacing of bone screws, 204
Timing of surgical decompression and fixation of acute spinal fractures, 323
Titanium plate fixation: a review of implant failures, 389
Traumatic plastic deformity of an adult forearm: case report and literature review, 213
Use of an anterior incision of the meniscus for exposure of tibial plateau fractures requiring open reduction and internal fixation, 243
Flexor hallucis longus tendon
Irreducible fracture of the calcaneus due to flexor hallucis longus tendon interposition, 285
Open medial subtalar dislocation associated with fracture of the posterior process of the talus, 142
Floating knee
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Forearm
Refracture risk after plate removal in the forearm, 87
Traumatic plastic deformity of an adult forearm: case report and literature review, 213
Ulnar nerve laceration in a closed both bone forearm fracture, 131
Forearm compartment syndrome
Forearm compartment syndrome due to automated injection of computed tomography contrast material, 433
Foreign body
Unrecognized foreign body in the hip joint, 216
Fracture
Amputation versus reconstruction traumatic defects of the leg: outcome and costs, 223
AO fracture classification logos, as evocative signposts, 146
Articulated radial head replacement and elbow release for post head-injury heterotopic ossification, 68
Assessment of fracture healing in the tibia using the impulse response method, 50
Avulsion fractures of the anterior superior iliac spine in adolescents, 440
Avulsion of the patellar ligament with combined fracture luxation of the proximal tibial epiphysis, 355
Biomechanical comparison of posterior internal fixation techniques for unstable pelvic fractures, 517
Biomechanical study of nine different tibia locking nails, 37
Classification and treatment of axis body fractures, 536
Complete vertebral fracture/dislocation of the cervical spine with minimal neurologic deficit, 123
Concomitant fracture of the coracoid and acromion after direct shoulder trauma, 437
Contact stress distributions in malreduced intraarticular distal radius fractures, 331
Crescent fracture: a posterior fracture dislocation of the sacroiliac joint, 165
Dependency after hip fracture in geriatric patients: a study of predictive factors, 531
Distal femoral fixation: a laboratory comparison of the 95° plate, antegrade and retrograde inserted reamed intramedullary nails, 378
Distal tibial nonunion treated by intramedullary reaming with external immobilization, 45
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563
Dynamic condylar screw for subtrochanteric femur fractures with greater trochanteric extension, 317
Early complications with external fixation of pediatric femoral shaft fractures, 191

Fracture *(contd.)*
Effect of variable size posterior wall acetabular fractures on contact characteristics of the hip joint, 395
Effects of periosteal stripping on healing of segmental fractures in rats, 279
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75
Extended uses for the Herbert/Whipple screw, 7
Fractures below the end of locking humeral nails, 500
Functional outcome of thoracolumbar burst fractures without neurological deficit, 541
Goal of acetabular fracture surgery, 586
Greenstick fractures of the radius in adults, 209
Gunshot fractures of the humeral shaft treated with external fixation, 273
Incidence of deep-vein thrombosis in patients with fractures of the lower extremity distal to the hip, 230
Incidence of Garden 1 + 2 and Garden 3 + 4 cervical hip fractures in Copenhagen, 523
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Ipsilateral sternoclavicular joint dislocation and clavicle fracture, 506
Irreducible fracture of the calcaneus due to flexor hallucis longus tendon interposition, 285
Lateral approach to the humeral shaft: an alternative approach for fracture treatment, 81
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577
Management of humeral nonunion after the failure of locking intramedullary nails, 492
Mechanical failure of intramedullary hip screw in a subtrochanteric femoral fracture, 348
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99
Open fractures of the patella, 403
Open medial subtalar dislocation associated with fracture of the posterior process of the talus, 142
Open reduction and internal fixation of the calcaneus using minifragment plates, 63
Optimal technique of screw placement in the ischial tuberosity for posterior acetabular fractures, 160
Pectoralis major tendon avulsion in association with proximal humerus fracture, 508
Pediatric chance fractures from lapbelts, 421
Pelvic and bladder trauma: a case report and subject review, 351
Posterior plating of displaced Weber B fibula fractures, 199
Prevention of heterotopic bone formation after acetabular fracture fixation by single-dose radiation therapy, 258
Pulseless arm in association with totally displaced supracondylar fracture, 410
Reamed nailing of open tibial fractures: does the antibiotic bead pouch reduce the deep infection rate?, 298
Refracture risk after plate removal in the forearm, 87
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545
Split fractures of the lateral tibial plateau: evaluation of three fixation methods, 304
Stem fracture in the VDP prosthesis, 515
Three-view radiographic assessment of heterotopic ossification after acetabular fracture surgery, 93
Timing of surgical decompression and fixation of acute spinal fractures, 323
Traumatic plastic deformity of an adult forearm: case report and literature review, 213
Treatment of deformed tibial intramedullary nail, 580
Triradiate cartilage fracture associated with a transepiphyseal separation of the femoral head, 575
Ulnar nerve laceration in a closed both bone forearm fracture, 131
Use of an anterior incision of the meniscus for exposure of tibial plateau fractures requiring open reduction and internal fixation, 243
Weight bearing after hip fracture: a prospective series of 596 geriatric hip fracture patients, 526

Fracture classification
Classification and treatment of axis body fractures, 536

Fracture healing
Connective tissue parameters in experimental nonunion, 114

Fracture-dislocation
Crescent fracture: a posterior fracture dislocation of the sacroiliac joint, 165
Intermediate-term experience of Pipkin fracture-dislocations of the hip, 455
Irreducible fracture dislocation of the knee, 359
Irreducible fracture of the calcaneus due to flexor hallucis longus tendon interposition, 285
Unrecognized foreign body in the hip joint, 216

Functional outcome
Functional outcome of thoracolumbar burst fractures without neurological deficit, 541

Gap defect
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108

Garden cervical hip fracture
Incidence of Garden 1 + 2 and Garden 3 + 4 cervical hip fractures in Copenhagen, 523

Glenohumeral dislocation
Open inferior glenohumeral dislocation, 504

Graft healing
Autogenous cancellous bone graft incorporation in a gap defect in the canine femur, 108

Greenstick fracture
Greenstick fractures of the radius in adults, 209

Ground cortical autograft
Evaluation of ground cortical autograft as a bone graft material in a new canine bilateral segmental long bone defect model, 28

Group A Streptococcus
Fatal Group A streptococcal infection with toxic shock syndrome: complicating minor orthopedic trauma, 149

Gunshot wound
Drug and alcohol use in orthopedic trauma patients, 21
Gunshot fractures of the humeral shaft treated with external fixation, 273

Head injury
Articulated radial head replacement and elbow release for post head-injury heterotopic ossification, 68

Healing
Assessment of fracture healing in the tibia using the impulse response method, 50
Connective tissue parameters in experimental nonunion, 114
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563
Effects of periosteal stripping on healing of segmental fractures in rats, 279
Recalcitrant femoral pseudarthrosis healed with a torsionally stiff intramedullary nail, 135

Health status
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99

Hepatitis
Hazards to the orthopaedic trauma surgeon: occupational exposure to HIV and viral hepatitis, 289

Herbert/Whipple Screw
Extended uses for the Herbert/Whipple screw, 7

Heterotopic bone
Prevention of heterotopic bone formation after acetabular fracture fixation by single-dose radiation therapy, 258

Heterotopic ossification
Articulated radial head replacement and elbow release for post head-injury heterotopic ossification, 68
Prevention of heterotopic bone formation after acetabular fracture fixation by single-dose radiation therapy, 258
Three-view radiographic assessment of heterotopic ossification after acetabular fracture surgery, 93

Hip
Effect of variable size posterior wall acetabular fractures on contact characteristics of the hip joint, 395
Intermediate-term experience of Pipkin fracture-dislocations of the hip, 455
Mechanical failure of intramedullary hip screw in a subtrochanteric femoral fracture, 348
Posterior hip dislocations: a cadaveric angiographic study, 447
Unrecognized foreign body in the hip joint, 216

Hip fracture
Dependency after hip fracture in geriatric patients: a study of predictive factors, 531
Incidence of Garden 1 + 2 and Garden 3 + 4 cervical hip fractures in Copenhagen, 523
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Triradiate cartilage fracture associated with a transepiphyseal separation of the femoral head, 575
Weight bearing after hip fracture: a prospective series of 596 geriatric hip fracture patients, 526

Hip motion
Three-view radiographic assessment of heterotopic ossification after acetabular fracture surgery, 93

Hospitalization
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99

Human immunodeficiency virus
Hazards to the orthopaedic trauma surgeon: occupational exposure to HIV and viral hepatitis, 289

Humeral shaft
Fractures below the end of locking humeral nails, 500
Gunshot fractures of the humeral shaft treated with external fixation, 273
Lateral approach to the humeral shaft: an alternative approach for fracture treatment, 81

Humerus fracture
Extended uses for the Herbert/Whipple screw, 7
Management of humeral nonunion after the failure of locking intramedullary nails, 492
Pectoralis major tendon avulsion in association with proximal humerus fracture, 508
Posterior approaches to the humerus: when should you worry about the radial nerve?, 338

Hydroxyapatite coating
Improvement of the bone-pin interface with hydroxyapatite coating, 236

Iliac spine
Avulsion fractures of the anterior superior iliac spine in adolescents, 440

Ilioinguinal exposure
Retropubic vascular hazards of the ilioinguinal exposure, 156

Iliosacral screw
Radiographic recognition of the sacral alar slope for optimal placement of iliosacral screws, 171
Regarding safe and effective placement of iliosacral screws, 514

Immobilization
Distal tibial nonunion treated by intramedullary reaming with external immobilization, 45

Implant
Bone regeneration with resorbable polymeric membranes: treatment of diaphyseal bone defects in the rabbit radius with poly(L-lactide) membrane, 178
Fractures below the end of locking humeral nails, 500
Titanium plate fixation: a review of implant failures, 389

Impulse response method
Assessment of fracture healing in the tibia using the impulse response method, 50

Indirect reduction
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372

Infection
Fatal Group A streptococcal infection with toxic shock syndrome: complicating minor orthopedic trauma, 149
Reamed nailing of open tibial fractures: does the antibiotic bead pouch reduce the deep infection rate?, 298

Interlocking nail
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563
Management of humeral nonunion after the failure of locking intramedullary nails, 492

Internal fixation
Biomechanical comparison of posterior internal fixation techniques for unstable pelvic fractures, 517
Ipsilateral sternoclavicular joint dislocation and clavicle fracture, 506
Open fractures of the patella, 403
Open reduction and internal fixation of the calcaneus using minifragment plates, 63
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Use of an anterior incision of the meniscus for exposure of tibial plateau fractures requiring open reduction and internal fixation, 243

Interosseus nerve palsy
False aneurysm presenting as delayed posterior interosseus nerve palsy, 583

Interstitial pressure
Effect of antecedent ischemia on the tolerance of skeletal muscle to increased interstitial pressure, 555

Intraarticular radial fracture
Contact stress distributions in malreduced intraarticular distal radius fractures, 331

Intramedullary locking nail
Biomechanical study of nine different tibia locking nails, 37

Intramedullary nailing
Distal femoral fixation: a laboratory comparison of the 95° plate, antegrade and retrograde inserted reamed intramedullary nails, 378
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Management of humeral nonunion after the failure of locking intramedullary nails, 492
Mechanical failure of intramedullary hip screw in a subtrochanteric femoral fracture, 348
Recalcitrant femoral pseudarthrosis healed with a torsionally stiff intramedullary nail, 135
Removal of intramedullary nails from the femur, 560
Treatment of deformed tibial intramedullary nail, 580

Intramedullary plating
Use of endosteal substitution in the treatment of recalcitrant nonunions of the femur, 1

Intramedullary reaming
Distal tibial nonunion treated by intramedullary reaming with external immobilization, 45
Fatal pulmonary embolization after reaming of the femoral medullary cavity in sclerosing osteomyelitis, 429

Intramedullary rod
Closed removal of a segmental intramedullary rod, 363

Intramedullary screw
Mechanical failure of intramedullary hip screw in a subtrochanteric femoral fracture, 348

In vitro stiffness
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416

Ischemia
Effect of antecedent ischemia on the tolerance of skeletal muscle to increased interstitial pressure, 555

Ischial tuberosity
Optimal technique of screw placement in the ischial tuberosity for posterior acetabular fractures, 160

Knee
Arterial injuries in orthopaedics: the posteromedial approach for vascular control about the knee, 476
Avulsion of the patellar ligament with combined fracture luxation of the proximal tibial epiphysis, 355
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Irreducible fracture dislocation of the knee, 359
Open fractures of the patella, 403
Traumatic popliteal artery thrombosis and compartment syndrome of the leg following blunt trauma to the knee: a discussion of treatment and complications, 138

Laceration
Ulnar nerve laceration in a closed both bone forearm fracture, 131

Lapbelt injury
Pediatric chance fractures from lapbelts, 421

Lateral approach
Lateral approach to the humeral shaft: an alternative approach for fracture treatment, 81

Leg defect
Amputation versus reconstruction traumatic defects of the leg: outcome and costs, 223

Leg injury
Cross leg flap in a bilateral traumatic amputee, 510
Incidence of deep-vein thrombosis in patients with fractures of the lower extremity distal to the hip, 230
Traumatic popliteal artery thrombosis and compartment syndrome of the leg following blunt trauma to the knee: a discussion of treatment and complications, 138

Letters to the editor
AO fracture classification logos, as evocative signposts, 146
Goal of acetabular fracture surgery, 586
Regarding safe and effective placement of iliosacral screws, 514
Regarding safe and effective placement of iliosacral screws: author's reply, 514
In response to article by Ostrum and Geel, 221
In response to Dr. Merchan's letter, 221
Stem fracture in the VDP prosthesis, 515

Ligament avulsion
Avulsion of the patellar ligament with combined fracture luxation of the proximal tibial epiphysis, 355

Limb salvage
Cross leg flap in a bilateral traumatic amputee, 510

Lisfranc injury
Plantar ecchymosis sign: a clinical aid to diagnosis of occult Lisfranc tarsometatarsal injuries, 119

Load
Effect of single-pass reaming on tibial nail insertion load and stress, 569

Locking humeral nail
Fractures below the end of locking humeral nails, 500
Lower-extremity fracture
Incidence of deep-vein thrombosis in patients with fractures of the lower extremity distal to the hip, 230
Luxation
Avulsion of the patellar ligament with combined fracture luxation of the proximal tibial epiphysis, 355

Malposition
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416
Malreduction
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416
Mechanical failure
Mechanical failure of intramedullary hip screw in a subtrochanteric femoral fracture, 348
Mechanical testing
Biomechanical comparison of posterior internal fixation techniques for unstable pelvic fractures, 517
Meniscus
Use of an anterior incision of the meniscus for exposure of tibial plateau fractures requiring open reduction and internal fixation, 243
Minifragment plate
Open reduction and internal fixation of the calcaneus using minifragment plates, 63
Mobility
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99
Motor vehicle accident
Pediatric chance fractures from lapbelts, 421
Multiple trauma
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545
Timing of surgical decompression and fixation of acute spinal fractures, 323
Musculoskeletal injury
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545

Nailing
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563
Effect of single-pass reaming on tibial nail insertion load and stress, 569
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Reamed nailing of open tibial fractures: does the antibiotic bead pouch reduce the deep infection rate?, 298
Removal of intramedullary nails from the femur, 560
Necrotizing fasciitis
Fatal Group A streptococcal infection with toxic shock syndrome: complicating minor orthopedic trauma, 149
Nerves
False aneurysm presenting as delayed posterior interosseus nerve palsy, 583
Ulnar nerve laceration in a closed both bone forearm fracture, 131
Neurologic deficit
Complete vertebral fracture/dislocation of the cervical spine with minimal neurologic deficit, 123
Functional outcome of thoracolumbar burst fractures without neurological deficit, 541
Nonunion
Closed removal of a segmental intramedullary rod, 363
Connective tissue parameters in experimental nonunion, 114
Distal tibial nonunion treated by intramedullary reaming with external immobilization, 45
Extended uses for the Herbert/Whipple screw, 7
Management of humeral nonunion after the failure of locking intramedullary nails, 492
Use of endosteal substitution in the treatment of recalcitrant nonunions of the femur, 1

Occult injury
Plantar ecchymosis sign: a clinical aid to diagnosis of occult Lisfranc tarsometatarsal injuries, 119
Occupational exposure
Hazards to the orthopaedic trauma surgeon: occupational exposure to HIV and viral hepatitis, 289
Hazards to the orthopaedic trauma surgeon: occupational exposure to tuberculosis. Risk reduction, testing, and treatment, 366
Open fracture
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577
Open fractures of the patella, 403
Reamed nailing of open tibial fractures: does the antibiotic bead pouch reduce the deep infection rate?, 298
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545
Open reduction
Ipsilateral sternoclavicular joint dislocation and clavicle fracture, 506
Open reduction and internal fixation of the calcaneus using minifragment plates, 63
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Use of an anterior incision of the meniscus for exposure of tibial plateau fractures requiring open reduction and internal fixation, 243
Osseointegration
Removal of intramedullary nails from the femur, 560
Osteoarthritis
Contact stress distributions in malreduced intraarticular distal radius fractures, 331
Osteosynthesis
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416
Open fractures of the patella, 403
Osteotomy
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416
Traumatic plastic deformity of an adult forearm: case report and literature review, 213
Outcome
Amputation versus reconstruction traumatic defects of the leg: outcome and costs, 223
Contact stress distributions in malreduced intraarticular distal radius fractures, 331
Dependency after hip fracture in geriatric patients: a study of predictive factors, 531
Functional outcome of thoracolumbar burst fractures without neurological deficit, 541
Mobility in older patients with hip fractures: examining prefracture status, complications, and outcomes at discharge from the acute-care hospital, 99
Weight bearing after hip fracture: a prospective series of 596 geriatric hip fracture patients, 526

Paralysis
Isolated serratus anterior paralysis: a simple surgical procedure to reestablish scapulo-humeral dynamics, 341
Patella
Open fractures of the patella, 403
Patellar ligament
Avulsion of the patellar ligament with combined fracture luxation of the proximal tibial epiphysis, 355
Patellectomy
Open fractures of the patella, 403
Pathogen
Orthopedic trauma surgeons' attitudes and practices towards bloodborne pathogens, 383
Pectoralis major tendon avulsion
Pectoralis major tendon avulsion in association with proximal humerus fracture, 508
Pelvis
Biomechanical comparison of posterior internal fixation techniques for unstable pelvic fractures, 517
Pelvic and bladder trauma: a case report and subject review, 351
Periosteum
Effects of periosteal stripping on healing of segmental fractures in rats, 279
Piecrusting
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577
Pin
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487
Improvement of the bone-pin interface with hydroxyapatite coating, 236
Pipkin fracture-dislocation
Intermediate-term experience of Pipkin fracture-dislocations of the hip, 455
Plantar ecchymosis sign
Plantar ecchymosis sign: a clinical aid to diagnosis of occult Lisfranc tarsometatarsal injuries, 119
Plastic deformity
Traumatic plastic deformity of an adult forearm: case report and literature review, 213
Plate-screw fixation
Anatomic considerations of plate-screw fixation of the anterior column of the acetabulum, 264
Plating
Distal femoral fixation: a laboratory comparison of the 95° plate, antegrade and retrograde inserted reamed intramedullary nails, 378
Posterior plating of displaced Weber B fibula fractures, 199
Refracture risk after plate removal in the forearm, 87

Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Strength of plate fixation in relation to the number and spacing of bone screws, 204
Titanium plate fixation: a review of implant failures, 389

Poly(L-lactide)
Bone regeneration with resorbable polymeric membranes: treatment of diaphyseal bone defects in the rabbit radius with poly(L-lactide) membrane, 178

Popliteal artery
Traumatic popliteal artery thrombosis and compartment syndrome of the leg following blunt trauma to the knee: a discussion of treatment and complications, 138

Post head-injury
Articulated radial head replacement and elbow release for post head-injury heterotopic ossification, 68

Posterior approach
Posterior approaches to the humerus: when should you worry about the radial nerve?, 338

Posteromedial approach
Arterial injuries in orthopaedics: the posteromedial approach for vascular control about the knee, 476

Posttraumatic arthritis
Contact stress distributions in malreduced intraarticular distal radius fractures, 331

Practice
Orthopedic trauma surgeons' attitudes and practices towards bloodborne pathogens, 383

Predictive factors
Dependency after hip fracture in geriatric patients: a study of predictive factors, 531

Prevention
Prevention of heterotopic bone formation after acetabular fracture fixation by single-dose radiation therapy, 258

Prosthesis
Stem fracture in the VDP prosthesis, 515

Protective equipment
Hazards to the orthopaedic trauma surgeon: occupational exposure to HIV and viral hepatitis, 289
Hazards to the orthopaedic trauma surgeon: occupational exposure to tuberculosis. Risk reduction, testing, and treatment, 366

Pseudoarthrosis
Connective tissue parameters in experimental nonunion, 114
Recalcitrant femoral pseudarthrosis healed with a torsionally stiff intramedullary nail, 135

Pulmonary embolism
Fatal pulmonary embolization after reaming of the femoral medullary cavity in sclerosing osteomyelitis, 429

Pulmonary physiology
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75

Pulselessness
Pulseless arm in association with totally displaced supracondylar fracture, 410

Radial head
Articulated radial head replacement and elbow release for post head-injury heterotopic ossification, 68

Radial nerve
Posterior approaches to the humerus: when should you worry about the radial nerve?, 338

Radiation therapy
Prevention of heterotopic bone formation after acetabular fracture fixation by single-dose radiation therapy, 258

Radiography
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563
Radiographic recognition of the sacral alar slope for optimal placement of iliosacral screws, 171
Three-view radiographic assessment of heterotopic ossification after acetabular fracture surgery, 93
Unrecognized foreign body in the hip joint, 216

Radius
Bone regeneration with resorbable polymeric membranes: treatment of diaphyseal bone defects in the rabbit radius with poly(L-lactide) membrane, 178
Contact stress distributions in malreduced intraarticular distal radius fractures, 331
Greenstick fractures of the radius in adults, 209

Reamed nailing
Distal femoral fixation: a laboratory comparison of the 95° plate, antegrade and retrograde inserted reamed intramedullary nails, 378
Reamed nailing of open tibial fractures: does the antibiotic bead pouch reduce the deep infection rate?, 298

Reaming
Effect of single-pass reaming on tibial nail insertion load and stress, 569
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75
Fatal pulmonary embolization after reaming of the femoral medullary cavity in sclerosing osteomyelitis, 429

Reconstruction
Amputation versus reconstruction traumatic defects of the leg: outcome and costs, 223
Management of humeral nonunion after the failure of locking intramedullary nails, 492
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545

Refracture risk
Refracture risk after plate removal in the forearm, 87

Relaxing skin incision
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577

Resonant frequency
Assessment of fracture healing in the tibia using the impulse response method, 50

Resorbable membrane
Bone regeneration with resorbable polymeric membranes: treatment of diaphyseal bone defects in the rabbit radius with poly(L-lactide) membrane, 178

Retrograde femoral nailing
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309

Retropubic vascular hazards
Retropubic vascular hazards of the ilioinguinal exposure, 156

Risk reduction
Hazards to the orthopaedic trauma surgeon: occupational exposure to tuberculosis. Risk reduction, testing, and treatment, 366

Sacral alar slope
Radiographic recognition of the sacral alar slope for optimal placement of iliosacral screws, 171

Sacral anatomy
Radiographic recognition of the sacral alar slope for optimal placement of iliosacral screws, 171

Sacroiliac joint
Crescent fracture: a posterior fracture dislocation of the sacroiliac joint, 165

Scapulo-humeral dynamics
Isolated serratus anterior paralysis: a simple surgical procedure to reestablish scapulo-humeral dynamics, 341

Sclerosing osteomyelitis
Fatal pulmonary embolization after reaming of the femoral medullary cavity in sclerosing osteomyelitis, 429

Screw
Anatomic considerations of plate-screw fixation of the anterior column of the acetabulum, 264
Cancellous bone screw thread design and holding power, 462
Dynamic condylar screw for subtrochanteric femur fractures with greater trochanteric extension, 317
Extended uses for the Herbert/Whipple screw, 7
Reinforcement of cancellous bone screws with calcium phosphate cement, 15
Relationship of mechanical factors to the strength of proximal femur fractures fixed with cancellous screws, 248

Screw placement
Optimal technique of screw placement in the ischial tuberosity for posterior acetabular fractures, 160
Radiographic recognition of the sacral alar slope for optimal placement of iliosacral screws, 171
Regarding safe and effective placement of iliosacral screws, 514
Strength of plate fixation in relation to the number and spacing of bone screws, 204

Seatbelt injury
Pediatric chance fractures from lapbelts, 421

Segmental defect
Evaluation of ground cortical autograft as a bone graft material in a new canine bilateral segmental long bone defect model, 28

Segmental fracture
Effects of periosteal stripping on healing of segmental fractures in rats, 279

Segmental intramedullary rod
Closed removal of a segmental intramedullary rod, 363

Serratus anterior paralysis
Isolated serratus anterior paralysis: a simple surgical procedure to reestablish scapulo-humeral dynamics, 341

Sheep model
Effects on pulmonary physiology of reamed femoral intramedullary nailing in an open-chest sheep model, 75

Shoulder
Concomitant fracture of the coracoid and acromion after direct shoulder trauma, 437
Open anterior dislocation of the shoulder, 128
Open inferior glenohumeral dislocation, 504

Skeletal muscle
Effect of antecedent ischemia on the tolerance of skeletal muscle to increased interstitial pressure, 555

Soft-tissue coverage
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577

Spinal fracture
Avulsion fractures of the anterior superior iliac spine in adolescents, 440

Spinal fracture *(contd.)*
Pediatric chance fractures from lapbelts, 421
Timing of surgical decompression and fixation of acute spinal fractures, 323
Spinal fracture/dislocation
Complete vertebral fracture/dislocation of the cervical spine with minimal neurologic deficit, 123
Split fracture
Split fractures of the lateral tibial plateau: evaluation of three fixation methods, 304
Stainless-steel tube
Comparative biomechanical evaluation of different external fixation sidebars: stainless-steel tubes versus carbon fiber rods, 470
Sternoclavicular joint dislocation
Ipsilateral sternoclavicular joint dislocation and clavicle fracture, 506
Streptococcal infection
Fatal Group A streptococcal infection with toxic shock syndrome: complicating minor orthopedic trauma, 149
Stress
Contact stress distributions in malreduced intraarticular distal radius fractures, 331
Effect of single-pass reaming on tibial nail insertion load and stress, 569
Stress test
Plantar ecchymosis sign: a clinical aid to diagnosis of occult Lisfranc tarsometatarsal injuries, 119
Subtalar dislocation
Open medial subtalar dislocation associated with fracture of the posterior process of the talus, 142
Subtrochanteric femur fracture
Dynamic condylar screw for subtrochanteric femur fractures with greater trochanteric extension, 317
Mechanical failure of intramedullary hip screw in a subtrochanteric femoral fracture, 348
Supracondylar fracture
Pulseless arm in association with totally displaced supracondylar fracture, 410
Results of open reduction and internal fixation of distal femur fractures using a biologic (indirect) reduction technique, 372
Sural nerve
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487
Surgeon
Hazards to the orthopaedic trauma surgeon: occupational exposure to HIV and viral hepatitis, 289
Hazards to the orthopaedic trauma surgeon: occupational exposure to tuberculosis. Risk reduction, testing, and treatment, 366
Orthopedic trauma surgeons' attitudes and practices towards bloodborne pathogens, 383
Surgery
Isolated serratus anterior paralysis: a simple surgical procedure to reestablish scapulo-humeral dynamics, 341
Surgical approaches
Arterial injuries in orthopaedics: the posteromedial approach for vascular control about the knee, 476
Extensile medial approach to the femur, 481
Lateral approach to the humeral shaft: an alternative approach for fracture treatment, 81
Posterior approaches to the humerus: when should you worry about the radial nerve?, 338
Surgical decompression
Timing of surgical decompression and fixation of acute spinal fractures, 323
Surgical error
In vitro femoral stiffness after femoral neck osteotomy and osteosynthesis with defined surgical errors, 416
Surgical mask
Hazards to the orthopaedic trauma surgeon: occupational exposure to tuberculosis. Risk reduction, testing, and treatment, 366

Talus
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487
Open medial subtalar dislocation associated with fracture of the posterior process of the talus, 142
Tarsometatarsal injury
Plantar ecchymosis sign: a clinical aid to diagnosis of occult Lisfranc tarsometatarsal injuries, 119
TB testing
Hazards to the orthopaedic trauma surgeon: occupational exposure to tuberculosis. Risk reduction, testing, and treatment, 366
Tendinous interposition
Irreducible fracture of the calcaneus due to flexor hallucis longus tendon interposition, 285
Tendon avulsion
Pectoralis major tendon avulsion in association with proximal humerus fracture, 508
Thoracolumbar burst fracture
Functional outcome of thoracolumbar burst fractures without neurological deficit, 541
Thread design
Cancellous bone screw thread design and holding power, 462
Thrombosis
Incidence of deep-vein thrombosis in patients with fractures of the lower extremity distal to the hip, 230
Traumatic popliteal artery thrombosis and compartment syndrome of the leg following blunt trauma to the knee: a discussion of treatment and complications, 138
Tibia
Assessment of fracture healing in the tibia using the impulse response method, 50
Biomechanical study of nine different tibia locking nails, 37
Distal tibial nonunion treated by intramedullary reaming with external immobilization, 45
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563
Effect of single-pass reaming on tibial nail insertion load and stress, 569
Ipsilateral fractures of the femur and tibia: treatment with retrograde femoral nailing and unreamed tibial nailing, 309
Local-advancement soft-tissue coverage in a child with ipsilateral grade IIIB open tibial and ankle fractures, 577
Reamed nailing of open tibial fractures: does the antibiotic bead pouch reduce the deep infection rate?, 298
Treatment of deformed tibial intramedullary nail, 580
Tibial epiphysis
Avulsion of the patellar ligament with combined fracture luxation of the proximal tibial epiphysis, 355
Tibial nerve
External fixation of the calcaneus and talus: an anatomical study for safe pin insertion, 487
Tibial plateau fracture
Split fractures of the lateral tibial plateau: evaluation of three fixation methods, 304
Use of an anterior incision of the meniscus for exposure of tibial plateau fractures requiring open reduction and internal fixation, 243
Timing
Timing of surgical decompression and fixation of acute spinal fractures, 323
Titanium nail
Removal of intramedullary nails from the femur, 560
Titanium plate
Titanium plate fixation: a review of implant failures, 389
Torque
Improvement of the bone-pin interface with hydroxyapatite coating, 236
Torsional rigidity
Recalcitrant femoral pseudarthrosis healed with a torsionally stiff intramedullary nail, 135
Torsional strength
Strength of plate fixation in relation to the number and spacing of bone screws, 204
Toxic shock syndrome
Fatal Group A streptococcal infection with toxic shock syndrome: complicating minor orthopedic trauma, 149
Transepiphyseal separation
Triradiate cartilage fracture associated with a transepiphyseal separation of the femoral head, 575
Trauma patients
Drug and alcohol use in orthopedic trauma patients, 21
Triradiate cartilage fracture
Triradiate cartilage fracture associated with a transepiphyseal separation of the femoral head, 575
Trochanteric extension
Dynamic condylar screw for subtrochanteric femur fractures with greater trochanteric extension, 317
Tuberculosis
Hazards to the orthopaedic trauma surgeon: occupational exposure to tuberculosis. Risk reduction, testing, and treatment, 366

Ulna
Ulnar nerve laceration in a closed both bone forearm fracture, 131
Ulnar nerve
Ulnar nerve laceration in a closed both bone forearm fracture, 131

Vascular control
Arterial injuries in orthopaedics: the posteromedial approach for vascular control about the knee, 476
Vascular injury
Effect of antecedent ischemia on the tolerance of skeletal muscle to increased interstitial pressure, 555
Pulseless arm in association with totally displaced supracondylar fracture, 410
Retropubic vascular hazards of the ilioinguinal exposure, 156
VDP prosthesis
Stem fracture in the VDP prosthesis, 515

Vertebral fracture
Complete vertebral fracture/dislocation of the cervical spine with minimal neurologic deficit, 123

Viral infection
Hazards to the orthopaedic trauma surgeon: occupational exposure to HIV and viral hepatitis, 289

War wounds
Simplified external fixation for primary management of severe musculoskeletal injuries under war and peace time conditions, 545

Weber B fibula fracture
Posterior plating of displaced Weber B fibula fractures, 199

Weight bearing
Weight bearing after hip fracture: a prospective series of 596 geriatric hip fracture patients, 526

X-ray absorptiometry
Dual-energy x-ray absorptiometry as a measure of healing in fractures treated by intramedullary nailing, 563

1. Publication Title: Journal of Orthopaedic Trauma
2. Publication Number: 0890-5339
3. Filing Date: October 1, 1996
4. Issue Frequency: 8 times a year
5. Number of Issues Published Annually: 8
6. Annual Subscription Price: $145.00 US
7. Complete Mailing Address of Known Office of Publication (Not printer) (Street, city, county, state, and ZIP+4): Lippincott-Raven Publishers, 12107 Insurance Way, Hagerstown, MD 21740

15. Extent and Nature of Circulation		Average No. Copies Each Issue During Preceding 12 Months	Actual No. Copies of Single Issue Published Nearest to Filing Date
a. Total Number of Copies (Net press run)		2,794	2,800
b. Paid and/or Requested Circulation	(1) Sales Through Dealers and Carriers, Street Vendors, and Counter Sales (Not mailed)	—	—
	(2) Paid or Requested Mail Subscriptions (Include advertiser's proof copies and exchange copies)	1,980	2,115
c. Total Paid and/or Requested Circulation (Sum of 15b(1) and 15b(2))		1,980	2,115
d. Free Distribution by Mail (Samples, complimentary, and other free)		122	165
e. Free Distribution Outside the Mail (Carriers or other means)		—	—
f. Total Free Distribution (Sum of 15d and 15e)		122	165
g. Total Distribution (Sum of 15c and 15f)		2,102	2,280
h. Copies not Distributed	(1) Office Use, Leftovers, Spoiled	692	520
	(2) Returns from News Agents	—	—
i. Total (Sum of 15g, 15h(1), and 15h(2))		2,794	2,800
Percent Paid and/or Requested Circulation (15c / 15g x 100)		94%	93%

16. Publication of Statement of Ownership
☐ Publication required. Will be printed in the Vol. 10 #8 issue of this publication.
☐ Publication not required.
17. Signature and Title of Editor, Publisher, Business Manager, or Owner: Beverly J. Dietrich, Circulation Director — Date: 9/26/96
I certify that all information furnished on this form is true and complete. I understand that anyone who furnishes false or misleading information on this form or who omits material or information requested on the form may be subject to criminal sanctions (including fines and imprisonment) and/or civil sanctions (including multiple damages and civil penalties).

Instructions to Publishers

1. Complete and file one copy of this form with your postmaster annually on or before October 1. Keep a copy of the completed form for your records.
2. In cases where the stockholder or security holder is a trustee, include in items 10 and 11 the name of the person or corporation for whom the trustee is acting. Also include the names and addresses of individuals who are stockholders who own or hold 1 percent or more of the total amount of bonds, mortgages, or other securities of the publishing corporation. In item 11, if none, check the box. Use blank sheets if more space is required.
3. Be sure to furnish all circulation information called for in item 15. Free circulation must be shown in items 15d, e, and f.
4. If the publication had second-class authorization as a general or requester publication, this Statement of Ownership, Management, and Circulation must be published; it must be printed in any issue in October or, if the publication is not published during October, the first issue printed after October.
5. In item 16, indicate the date of the issue in which this Statement of Ownership will be published.
6. Item 17 must be signed.

Failure to file or publish a statement of ownership may lead to suspension of second-class authorization.
